Q1 We are proposing to consider the environmental/climate change impact when assessing the significance of a proposal. Do you agree with this?

Multi Choice

Yes

Q2 Please explain

Long Text

Absolutely, as much as we might wish climate change won't have an impact - it is real and we need to be considering it - along with other environmental impacts, in all council decision making. This is a no-brainer!

Q3 Do you agree with the proposed section on implementation of the policy?

Multi Choice

Yes

Q4 Please explain

Long Text

Increasing transparency around implementation of the policy is an excellent idea.

Ashburton Art Gallery & Museum - Yes

These three assets are crucial if Council is to deliver on key outcomes that are important to the well-being of the community.

Multi Choice

No

Q8 Please explain

Q9 Do you agree with our other proposed changes?

Multi Choice

Yes

Q10 Please explain

Long Text

The changes all make sense. I am particularly pleased about 2 elements:
1. The proposal for te reo words being used & defined. It will be good to see local dialect used consistently. (I note that some signs in Te Kete Tuhinga/ Library use the Kai Tahu dialect, some do not).
2. Inclusion of consideration of wider Mana whenua values. On all proposals we need Mana Whenua guidance/ input. We are missing out if we don't have them at the table.
Relating to this - a key indigenous value is to think seven generations ahead, Māori talk about making decisions for their mokopuna's mokopuna. This future focus brought into decision making is necessary and I'm pleased that's now included in section 4.5
