Where does our water come from?

Our Place
Our Water

Ensuring the safety of the water we drink is the most important job Council has as a water supplier

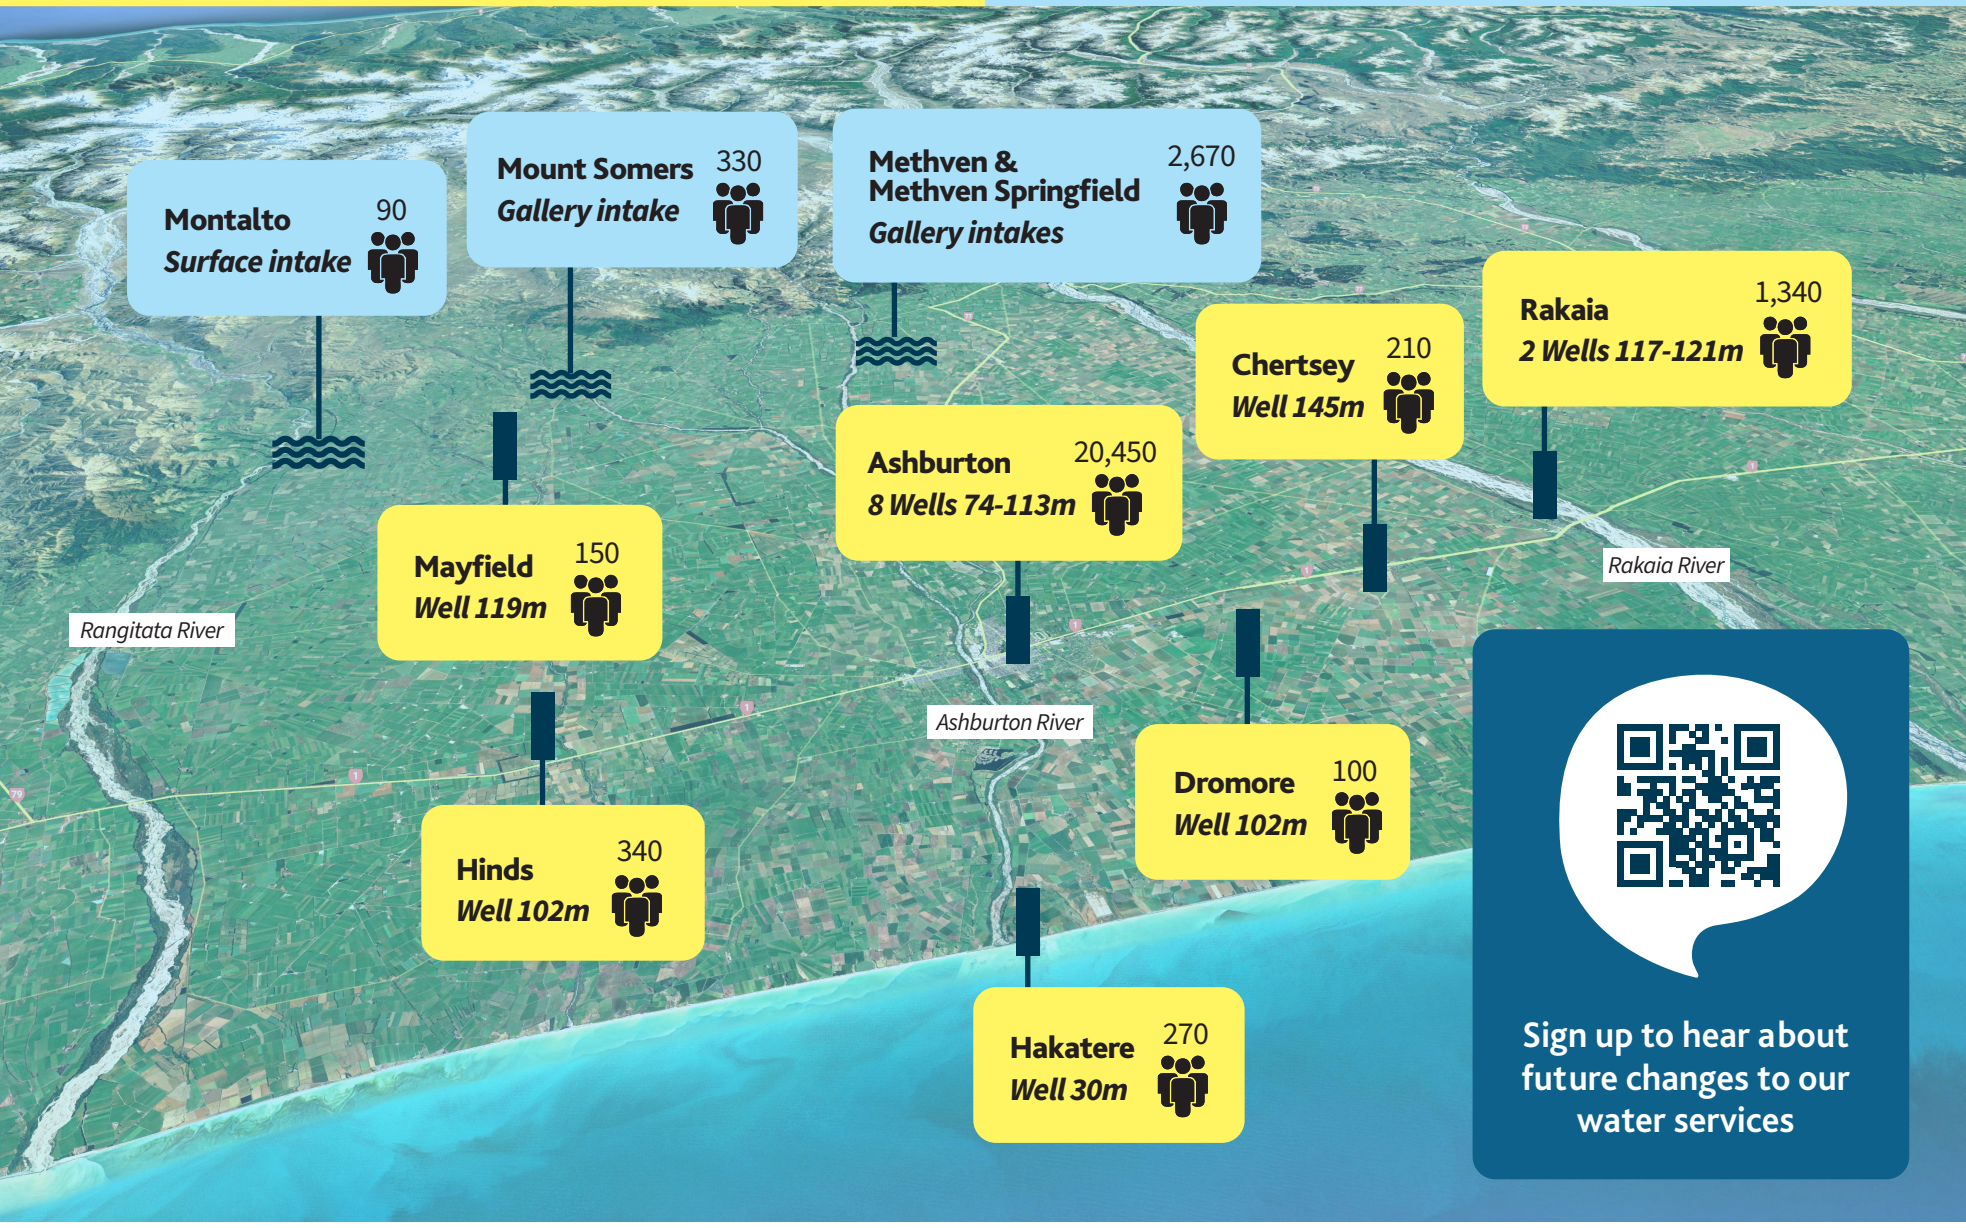

COUNCIL IS RESPONSIBLE FOR

- operating drinking water supplies
- maintaining water treatment equipment and pipes
- monitoring water quality
- upgrading and extending supplies

Ashburton District Council operates **10** community drinking water supplies providing safe drinking water to **70%** of our **37,000** district residents

15 Wells *(30-145 metres)*

3 Surface & gallery intakes
