Long Text

As the RCA we have several times in the past put our thoughts forward with regards to the Council-owned public land area on the east side of Rakaia between Tancrede, Pitt and Michael streets. We would like to say again that we would like to see this developed into a public park and playground space as it is intended for, and we understand has been zoned for since Rakaia Township was developed. We put these thoughts forward to the Long term plan a short while ago as well. We see this as important for the people and Families that live on the East side of Rakaia.

We would also like the Council to consider taking over the upkeep on the two short walkway trails we, the RCA developed many years ago and have been up keeping since; these sections are the 250-meter section along Rakaia Tec in front of the Recycle park and the 150-meter section behind the Primary school. The RCA spent many Tens of Thousands of Dollars clearing and developing these areas and they are well settled nowadays with good easy to upkeep, mostly Native, garden plots and easy-to-mow grassed areas on either side of the walkways; they are well-used and loved by people from near and far.

We would also like the Council to know that we are looking to extend this walking/biking trail eastwards, starting from the Pedestrian Railway crossing at the Dog park end, heading North along the grassed area between the Main road and Railway track, with the main goal of making the trail go under the Main road bridge via the abutments space, already under the bridge since it was built, and well up on dry land all the time. This will give our town a great way to go walking and biking safely from one side of Rakaia to the other, without having to run the Gauntlet across the main road and easy access to the riverbed for swimming, fishing, dog walking biking, etc and make the trail a good length in the process. It will also link up with the small shingle roads in this area just East of the bridge.

Further two our written request in April 2024 (attached to this submission) regarding water supply in the two dog exercise areas of the Ashburton Dog Park, we also wish the Council to fill in the lower areas of the 'all dogs' area as it becomes very muddy after rain.

We realise and appreciate the fact that these areas are available for our dogs to socialise and exercise and also for the owners to join an elite group of furbaby lovers.

Many thanks for the supply of shingle (top up) at both main entrances for the convenience of a lady in an electric wheelchair who loves bringing her dog here to exercise.

It has also been pointed out that there are several areas around the boundary fences that are not totally secure and we were wondering if someone could inspect the boundaries and repair where necessary (mainly south ends of both areas and west end of small dog area).

I have written both of these requests with the agreement of several visitors to these areas.

To the Park and Recreation Councillors

Ashburton District Council

attached

Further to our written request of April 2024 regarding water supply in the two dog exercise areas of the Ashburton Dog Park, we also wish the Council to fill-in the lower areas of the All-Dog area as it becomes very muddy after rain.

We realise and appreciate the fact that these areas are available for our dogs to socialise and exercise and also for the owners to join an elite group of furby lovers.

Many thanks for the supply of shingle (top-up) at both main entrances for the convenience of a lady, in an electric wheelchair, who loves bringing her dog here to exercise.

It has also been pointed out that there are several areas around the boundary fences that are not totally secure and we were wondering if someone could inspect the boundaries and repair where necessary (mainly south ends of both areas and west end of small dog area).

I have written both of these requests with the agreement of several regular visitors to these areas.

Jo Evans

August 2024

As an Ashburton resident and a regular visitor to your Dog Park on the riverbank at Cass Street I wish to request the possibility of having water on tap within the 2 areas.

The small container provided outside these areas is not suitable as the dogs need something inside the compounds so they can access water as they require it.

I have been taking water containers with me and on most occasions the dishes have been emptied by the thirsty dogs.

During the summer months I take a 3-litre bottle in and have sometimes had to refill it.

I don't think many people realise how much energy is spent during a 1-hour visit and therefore do not realise how thirsty the dogs get.

I have a medium sized dog but he tears around like a rabbit with the large dogs and he always needs water.

I also wish to advise there are approx. 6 users of these areas who do "poo patrol". Most days there is a substantial lot of poos not picked up by the public, but we clear the areas daily as a health issue for our own and other pets. We realise not everyone is vigilant in being responsible dog owners so we take it upon ourselves to try and keep the areas clean and tidy.

The ladies who change the rubbish liners and supply the pick-up bags have not been very friendly and on occasions have thrown out any water containers that have been placed in the compounds, even though requested to "please do not remove". Their excuses for removal are quite pathetic, i.e. hazardous plastic, or might blow away and cause damage to the mower (there are more sticks and stones around to do this).

Thank you for taking the time to read this request and your response would be appreciated.

The following page shows a list of signatories taken over a 2-day period.

In referring to volume 3 document on Rakaia Domain.

- The Rakaia Rugby Club construction of the Recreation Centre has necessitated the Reserve Board to completely upgrade the electricity supply to the domain for various sports clubs to be connected up to.

- The public toilets being provided by ADC at the end of the Recreation Centre building has required the Reserve Board to connect to Rakaia town supply to get the pressure required for toilets selected to be able to function.

- All other clubrooms will be connected up progressively to this town supply which is required for future water

socialpinpoint

quality legislation from Government.

- Rates are being charged for the lease block on the eastern side of town that gives income for Council but very little to the Reserve Board for the ongoing maintence of the area.

- The forestry block that is harvested approx every 25-30 years on northern side of Normanby Road is a critical asset to the domain for ongoing funding to the domain for its maintenance and to upgrade facilities as required.

RAKAIA
PARK SUBMISSION

Dave Eddington

TABLE OF CONTENT

01. **REZONE MICHAEL STREET, RAKAIA RESERVE**
5 acres or 22.000m2
Rezone to Residential

02. **REZONE BURROWES ROAD, RAKAIA**
5 acres
Rezone to Reserve

01.

PROBLEM VS SOLUTION

Housing development and Playground Facilities for the East of Rakaia

Exchange Michael Street Reserve with Burrowes Road area as replacement Reserve

1. MICHAEL STREET

Currently zoned as Reserve.

POTENTIAL RESIDENTIAL HOUSING AREA

1 The land currently zoned as Reserve has the potential to be valuable as residential housing area.

It could provide additional housing for the township where a shortage is imminent.

2 A lack of resources and facilities on the Eastern side of Rakaia, with a huge (SH1) barrier between the two sides, and a significant safety issue to access the Western side for those on the East.

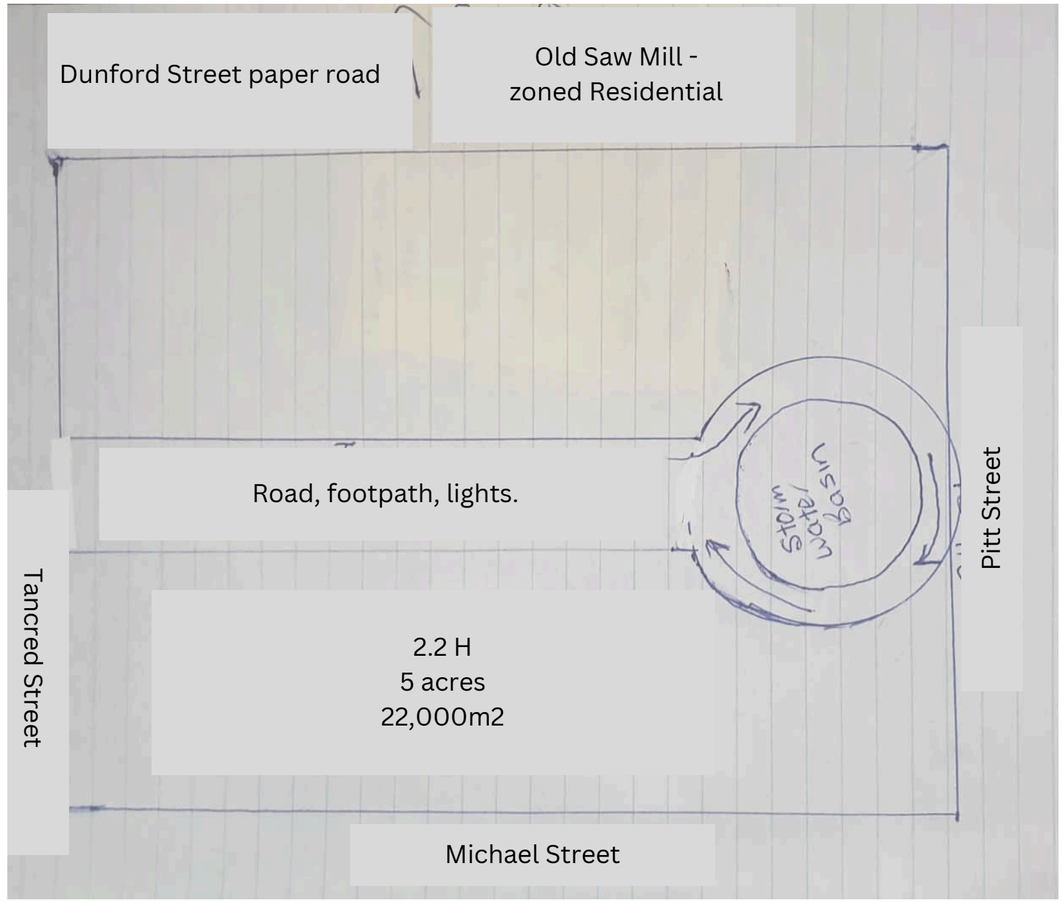

SOLUTION

1 The rezoning of Michael Street reserve and turning it into a residential development could provide for additional housing for the township.

2 Moving the Reserve to Burrowes Road (a less productive corner of the East) from the proceeds of the development of Michael Street Reserve, would provide facilities for those living on the Eastern side of Rakaia. While also tidying up two areas of the town.

MICHAEL STREET RESERVE

Information withheld on request of the submitter.

Caveats on Construction and Fencing
All services (ie power, water, sewerage) available from adjoining streets.

02.

PROBLEM VS SOLUTION

Exchange Michael Street with Burrowes Road area for Reserve

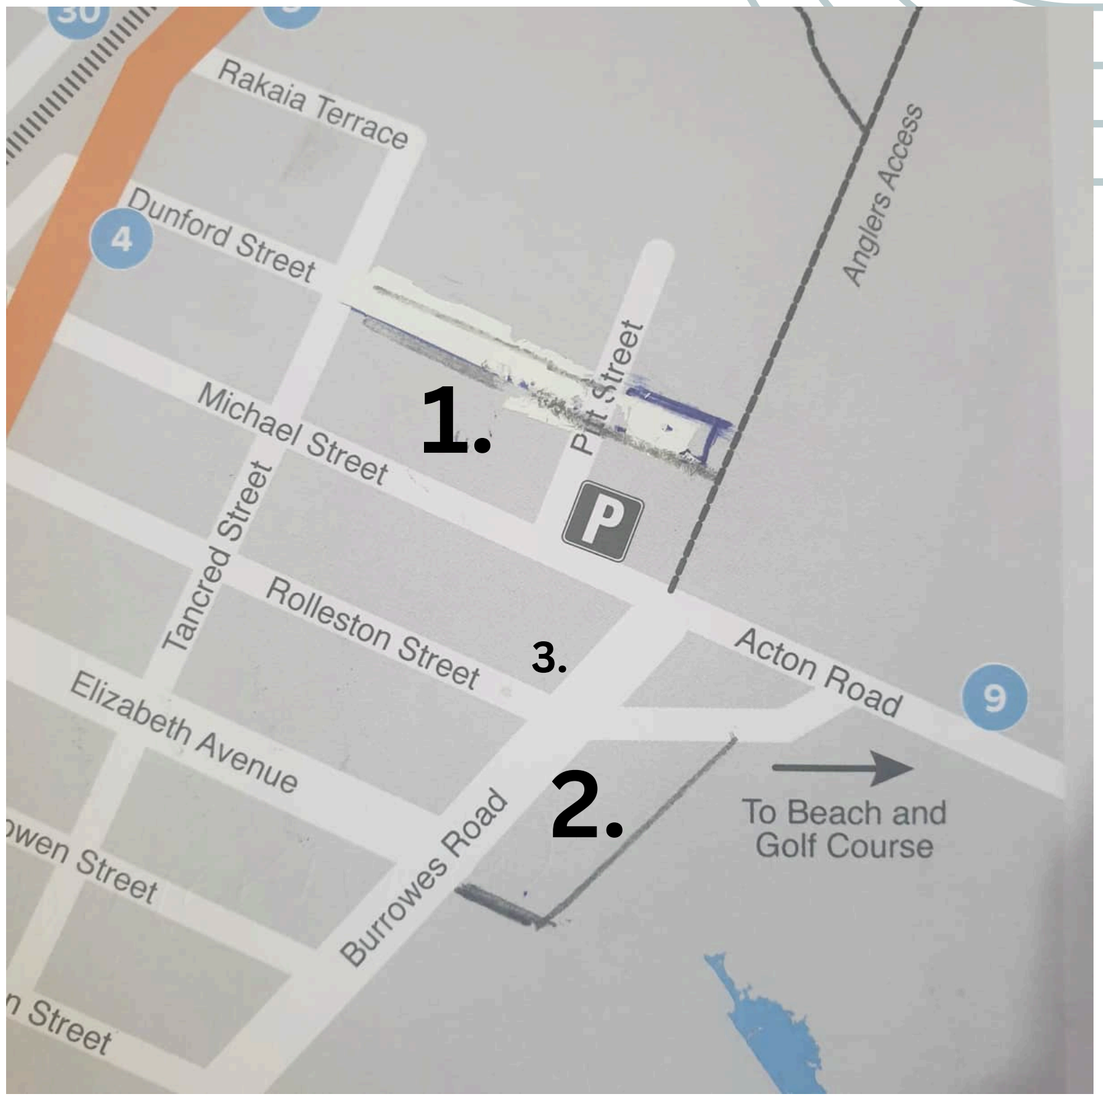

2. BURROWES ROAD

Rezone as Reserve.

REZONE BURROWES ROAD

Equivalent land area. (2 & 3 on map)

Rezone as Reserve for Eastern side playground facilities.

ALTERNATIVE RESERVE

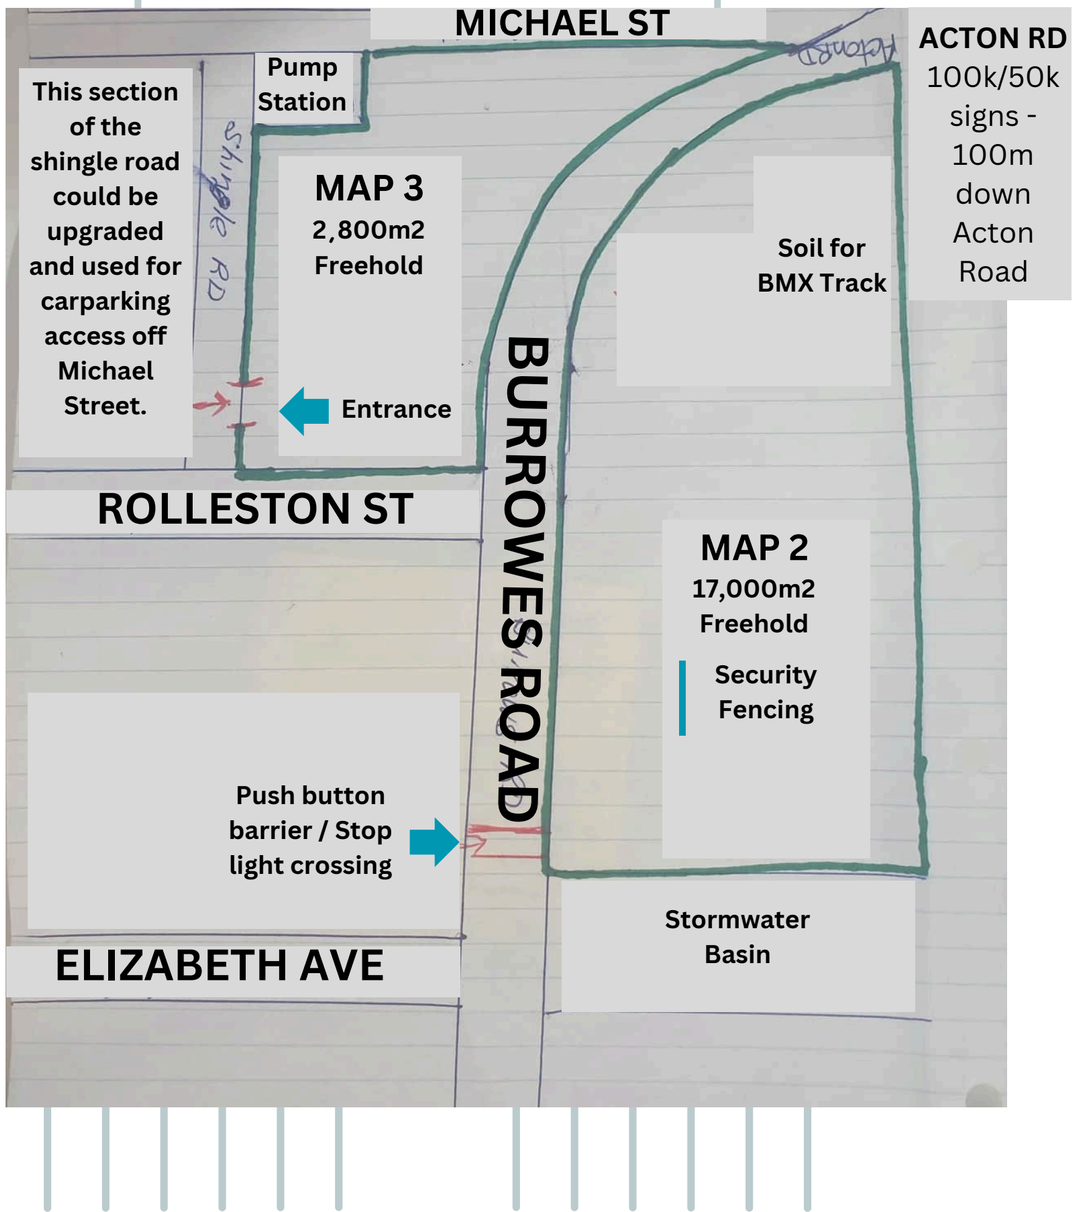

MAPS

Maps 2 or 3 would provide for a children's playground for those living on the Eastside.

It would also tidy up the Eastern Entrance to the town.

Benefits for Rakaia
(ie School, Preschool, Kindergarten, Sports Clubs, Retailers etc).

This plan should be cost equal with a profit to Council.

CURRENT DEVELOPMENTS IN RAKAIA

Little housing development in Rakaia township.

Eliza Way subdivision

Eliza Way subdivision of 17 large sections. These are all but full.

This is a Western Side of Rakaia development beside the Domain.

Kay Way – Waterford subdivision

The new subdivision beside Eliza Way has just opened up with 18 small (450 – 560m2) sections.

Both of these new completed developments are on the Western side of Rakaia.

Potential Michael Street subdivision

After the red tape is worked through, a Michael Street subdivision will give the town a much-needed boost with affordable housing options.

It will also balance out the Eastern side with housing development and facilities for the children of those in the East, removing the (SH1) barrier to obtain facilities for families.

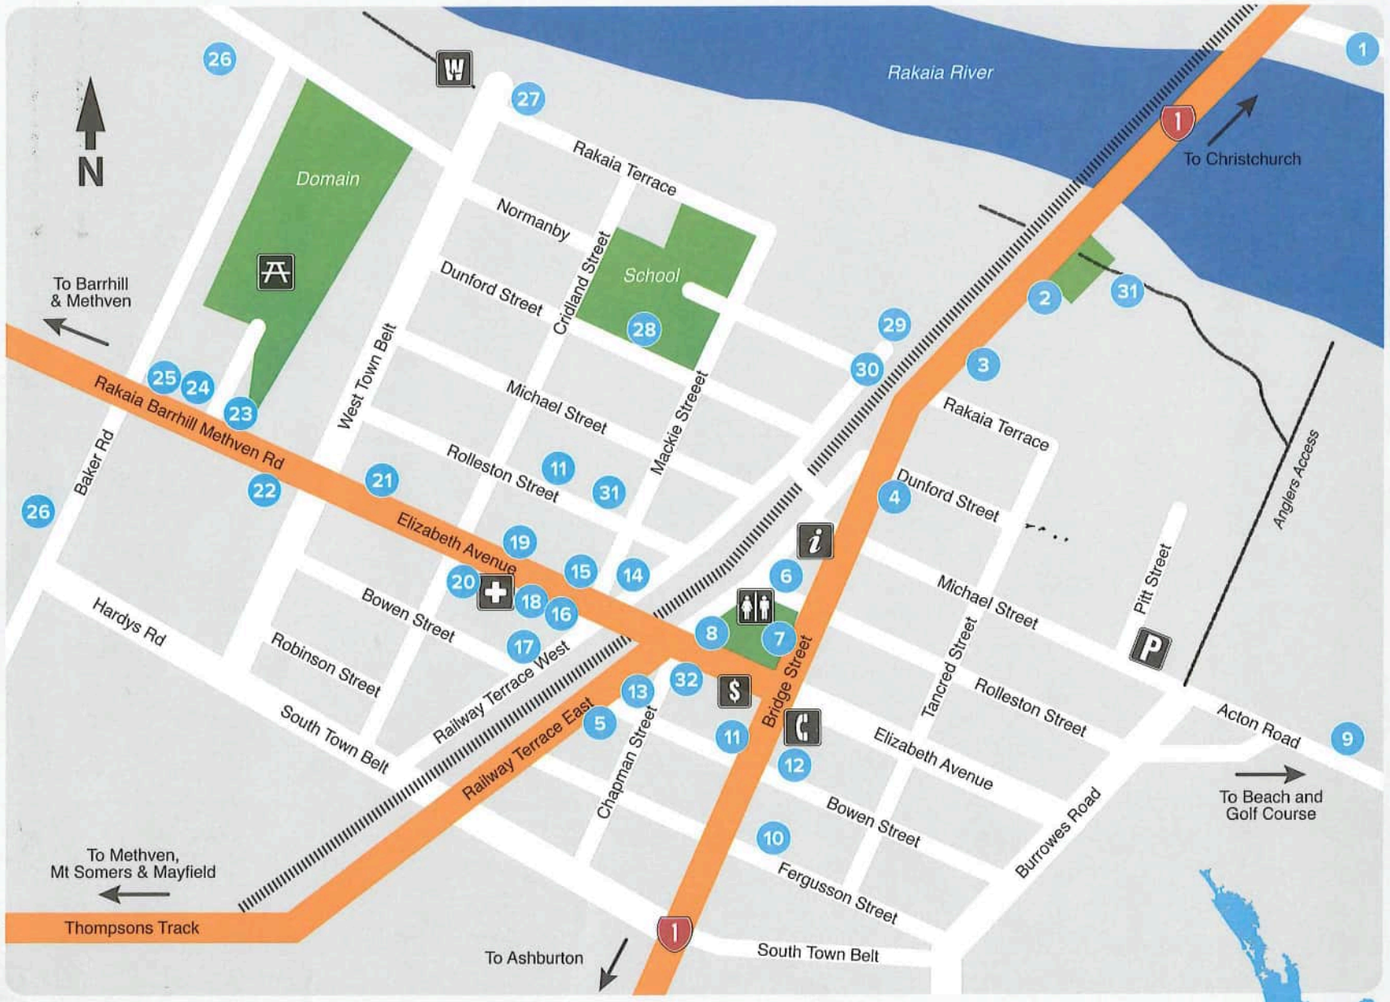

THANK YOU

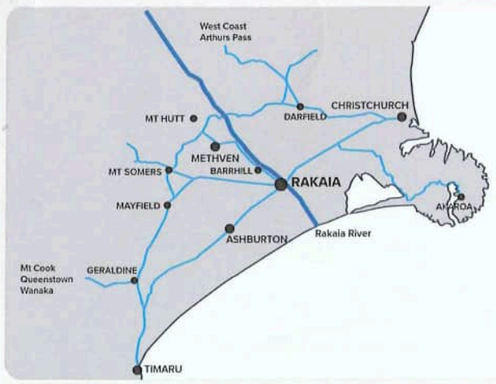

Have any question?

Points of Interest

1. Cairn (1 Km along North Rakaia Road) Erected in 2006 during Rakaia's 150th Anniversary celebrations. The Cairn indicates where the 1st accommodation house stood and the entry of the original Old Main South road into the river. William Dunford was the first owner and operator of a combined ferry and accommodation business. Bullock teams, wagons and specially built punts were used to take passengers and stock across the river.
2. The Bridge built in 1937, and completed in 1939 is 1.8kms long was heralded at the time as the longest bridge in the Southern Hemisphere. This replaced the dual road / rail bridge that stood since 1873. The bridge crosses one of the world's most accessible braided rivers.
3. Rakaia River Holiday Park was established in 1970 on part of Rakaia's first golf course.
4. Meads Tea Rooms named after the original owners. Miriam Mead ran a small tearooms down by the old dual bridge and then established the new premises here for travellers coming over the bridge.
5. Ashford's This is the original site of Ashford's first factory making the iconic Ashford Spinning Wheels
6. Salmon Tales Café, Rakaia Country Arts and Honey Bee Products. Built in 2005 / 2006 also has a visitors information centre
7. Salmon Sculpture. The creation of this was led by the Rakaia Lions club, designed and built by Phillip Price. Quinnat Salmon were introduced into the Waitaki River in 1907 and made their way to the Rakaia River.
8. Historic Precinct, 2 buildings have been restored and placed here; a bridge keepers hut and the old Rakaia Jail.
9. Church Service Site. In 1857 Bishop Harper held a church service in the Acton Station Homestead: the very first church service in Mid Canterbury
10. Part of the old South Rakaia Accommodation house, 63 Fergusson Street, Shifted here by Traction Engine in 1888.
11. Brick Villa Built by the Tucker Family who ran a coal business in Rakaia.
12. Presbyterian Church, The first church was built in 1892 and replaced with a new building in 1967.
13. South Rakaia Hotel, built in 1872 by George Robinson with his insurance pay-out after the North Rakaia accommodation house was burnt down.
14. The very first Post Office was sited in Dunford's Accommodation House. This building was opened in 1910. The Post Office also incorporated the telephone exchange and equipment. 25 people were employed there at its peak, closing in 1991.
15. Community Centre, Library and Plunket Rooms built in 1956. Rakaia's original Town Hall Burnt down in 1947, It took eight years for fund raising, the biggest event being a Queen Carnival to raise funds. This hall is a memorial to those lost in both world wars.
16. The former Bank of New Zealand, this building was designed by William Armson, built in 1881. A purpose built bank with its seven bedrooms upstairs for a large Victorian family and formal private lounge downstairs. The bank also contains a deep vault for deposits.
17. The Railway Hotel opened in 1884 adjacent to the old Railway Station
18. Former South Rakaia Masonic Lodge. This building opened in 1882 and closed in the late 1990's
19. St Marks Anglican Church designed by a Gothic Revival architect; Benjamin Mountford, opened in 1887. Flying Buttresses added in 1880 to withstand the Nor 'west gales. The East window was donated by the novelist G.B. Lancaster. (Miss E.J.Lyttleton) in memory of her parents.
20. Swimming Pool
21. Former Bakery, 11 Elizabeth Avenue, Established in 1864 Constructed of cavity concrete walls 12 inches thick.
22. St. Itas Church named after the Patron Saint of County Limerick in Ireland opened in 1885 also former St. Itas Convent School established in 1912 by the Sisters of Mercy. St Itas is now a Bed and Breakfast.
23. Old Cottage Hospital designed by E.M. Gabites who was also the designer of Methven Hospital, opened in 1923. Three wards, 1 double and 2 single. Now this is a private residence.
24. Pony Club
25. Former Sod Town as some of the first houses were made of sod. Now known as the Settlement. Sections of 3, 5 and 10 acres were put up for ballot in 1879 and 1880. There was great interest amongst the new immigrants. Approximately 150 people lived here in its heyday.
26. Cemetery
27. Resource Recovery Park which replaced previous 'landfill' Rubbish tips in 2002 with an innovative wet and dry waste-recovery system that recycles or uses over 85% of the waste stream.
28. Rakaia Primary School – Established in 1872
29. Walking Track, along the bank of the Rakaia River
30. Scout Den
31. Former Methodist Church, Rolleston Street
32. Mural which depicts the bygone days of the Rakaia District

Q1 **1. What is your overall opinion of the draft Ashburton District Council Reserve Management Plan?**

Multi Choice

Support

Q2 **Please Explain**

Long Text

It is apparent to me that a lot of work has gone into writing this particular Plan, and collating information from previous Plans. Of course, as with most things, the availability of money will always limit the scope of work, either to improve the existing facilities or to add to them, and, I anticipate, even maintaining the current situation will use most of the money allocated without allowing for any "spare" funds to develop new areas.

Q3 **Please indicate what you think about general reserve and open space network policies in the plan?**

Matrix

3.2.1 Manawhenua partnerships - Support
3.2.2 Cultural and historic heritage - Support
3.2.3 Biodiversity - Support
3.2.4 Specimen Trees - Support
3.2.5 Climate Change and Natural Hazards - Support
3.2.6 Sustainability - Support

Q4 **Would you like to further comment on any of the individual policy?**

Long Text

I consider much more attention needs to be devoted to maintaining the existing trees, many of which seem to need more frequent pruning.
I also consider it would be very beneficial if a concerted effort was made to improve the water features in the Domain, some of which appear to be cut off from use by overgrown planting, which shades the water. It appears all of the ponds would benefit from being cleared of fallen branches, and having the debris and mud which has accumulated them removed. Increasing the volume of water flowing through the ponds would assist them to maintain better health, especially as so many ducks live in them.

Q5 **Please indicate what you think about Recreational Use Policies in the plan?**

Matrix

3.3.1 General Recreational Use and Enjoyment - Support
3.3.2 Access - Support
3.3.3 Sport and Active Recreation - Support
3.3.4 Play - Support
3.3.5 Authorisation and Approvals - Support
3.3.6 Commercial Use - Support
3.3.7 Drones and Remotely Piloted Aircraft Systems - Support
3.3.8 Events and Firework Displays - Support
3.3.9 Camping - Support
3.3.10 Occupation Agreements (Leases, Licenses, & Easements, other than Grazing) - Support
3.3.11 Grazing (Leases & Licences) - Support
3.3.12 Public & Private Utilities - Support

Q6 **Would you like to further comment on any of the individual policy?**

Long Text

I agree commercial use of the Domain should not become a regular feature, although I agree the various circuses that use the space bring people to the area. I accept the various sporting codes use the Domain, and I support their continuing use of that, as most of them (apart from the bowling club) simply use a green and open space, with the only negative effect being an inability to plant trees in those spaces. However, there are many trees in other areas of the Domain, and it is pleasant to drive up Walnut Avenue and simply see green open space. It can be achieved, and the current paddling pool is thought to be approaching the end of its life, I agree relocating it to a site closer to the current, excellent, playground would be sensible. Also, expanding the current cycle track might attract more junior users to that facility. The playground is greatly valued, and frequently used. It is excellent.

Q7 **Please indicate what you think about Development Policies in the plan?**

Matrix

3.4.1 General Reserve Development - Support
3.4.2 Buildings and Structures - Support
3.4.3 Car Parking - Support
3.4.4 Lighting - Support
3.4.5 Reserve Furniture - Support
3.4.6 Signs & Interpretation - Support
3.4.7 Fencing - Support

socialpinpoint

Q8 **Would you like to further comment on any of the individual policy?**

Long Text

I consider the current parking is satisfactory. If there is a problem with car access from the North, and it is not prohibitively expensive, I would support a new road coming in from Walnut Avenue somewhere near the public lavatories and paddling pool so not too much open space is lost. If the works yard needs upgrading, I suggest that finds an alternative site so the area occupied by the current yard can be "repurposed". I agree with the proposal for the Council to take over the maintenance and management of the current sporting pavilions.

Q9 **Please indicate what you think about Administration Policies in the plan?**

Matrix

3.5.1 Naming of Reserves - Support
3.5.2 Gifts & Memorials - Support
3.5.3 Commemorative Trees - Support
3.5.4 Encroachments - Support
3.5.5 Public Art - Support
3.5.6 Public Health & Safety - Support
3.5.7 Ashes & Whenua (Placenta) - Support
3.5.8 Fire Control - Support
3.5.9 Bylaws & Enforcement - Support
3.5.10 Waste Management - Support

Q10 **Would you like to further comment on any of the individual policy?**

Long Text

I support the current proposals.

Q11 **Would you like to give feedback on Ashburton Domain & Gardens?**

Long Text

Thank you for your mahi, and for the opportunity to comment upon your draft Plan. I think you are doing the best you can with the limited funding you have available to you. You cannot achieve everything. However, I do feel we have not kept up with revitalising the plantings and the facilities, and have relied on the work of previous generations, and I consider the almost total lack of maintenance of the water features within the Domain illustrates that, as with maintenance of the roading network in the District, we have not spent as much recently as we should have. Several parts of the Domain seem rather "tired", and it may be time for us to spend some money when developing some of them, rather than simply planting daffodils. However, I do not wish to appear critical, and I admire the work of the gardeners in maintaining this priceless asset, and making it beautiful, even for passive enjoyment by simply driving past and knowing it is there, freely available for all to enjoy. A job very well done.

Q12 **Would you like to give feedback on individual reserve(s) managed by Reserve Boards?**

Multi Choice

Yes

Q13 **Please choose from reserves managed by Reserve Boards.**

Multi Choice

Alford Forest Domain
Methven Domain
Mayfield Domain

Q14 **Let us know your thoughts on the reserve(s) you have selected above?**

Long Text

I do not know of the other reserves, but I hope money is available for them all to keep improving: there is more to maintaining them than simply never-ending task of keeping the grass mown. Children need play equipment, and meeting other children at such playgrounds with their families is valuable to them. Goodness knows, we need as many opportunities to build social cohesion as possible.

Q15 **Would you like to give feedback on any individual park(s) and reserve(s) in Tinwald?**

Multi Choice

No

Q16 **Parks and reserves in Tinwald are listed below.**

Multi Choice

Q17 **Let us know your thoughts on the park(s) or reserve(s) you have selected above?**

Long Text

socialpinpoint

Q18 **Would you like to give feedback on any individual park(s) and reserve(s) in Ashburton?**

Multi Choice

Yes

Q19 **Reserves and parks in Ashburton are mentioned in the list below.**

Multi Choice

Argyle Park
Ashburton Dog Park and Robilliard Park
Ashburton Cemetery
Baring Square East
Baring Square West
East Street Green - CBD
Fairfield Road Reserve
Mania-O-Roto Park
Mona Square
Parkland at 828 East Street
Parkland at Bremners Road

Q20 **Let us know your thoughts on the park(s) or reserve(s) you have selected above?**

Long Text

Goodness, so many areas you need to maintain. I do consider the oak trees in the village green, especially in the Central Business District, need a lot more maintenance: several have dead branches in them, and I do hope the new "fairy lights", which are very attractive at night, are maintained and are not left, as the previous lights were, strangling the trees with permanently attached but no longer functioning equipment. The dead branches need to be removed, and, I consider some other branches could also sensibly be removed to assist others to grow better.
I hope the new work at Baring Square East will make that area more pleasant, although it has always been attractive. The trees up in the north end of the green near Bremner's Road are attractive, and I think it is important to remember such areas provide visual relief to passing persons, even if it appears owners walking dogs are the main users of the places. I wonder if Mona Square need some consideration of it, although I do consider simply having an empty space surrounded by trees remained valuable. Manio o roto Park seems rather undr-deveeloped, but perhaps the boy and girl scouts lik it that way, and it may be xtnsivly damagd by th stupidly placd proposd nw bridg.

Q21 **Would you like to give feedback on any individual park(s) and reserve(s) in Lake Hood?**

Q28 **Rural reserves in the Western Ward are mentioned in the list below.**

Multi Choice

Awa Awa Rata Reserve

Q29 **Let us know your thoughts on the reserve(s) you have selected above?**

Long Text

Awa Awa
Key issues:
- not just animal pests that need on-going control, but plant weeds too, eg, alder, blackberry
- camping at times is an issue & there needs to be a clear policy & signs to deter campers
- off-track driving in winter is often an issue

Specific policies:
- need to work with DOC & the committee to maintain and improve the walking tracks that lead around the reserve. The standard of bridges also needs improvement.
- It would be good to raise the standard of track that goes around the outside to the standard for wheelchairs and baby buggies
- signage for walking tracks needs to be improved, again need to work with DOC & committee
- there should be no more exotic plantings at Awa Awa. This had already been decided by the committee but was changed to accommodate the new rhodo plantings

Q30 **Would you like to give feedback on any individual rural reserve(s) in the Eastern Ward?**

Multi Choice

No

Q31 **Rural reserves in the Eastern Ward are mentioned in the list below.**

Kids area is terrible needs new road in and updated kids pool needs to be away bigger and a splash and play area waterful and other things that make kids wanna play there and get used to water

Should be a bike park so kids get used to road rules and have lights ect like Timaru has put in

Also playgrounds heaps just sits gets broken then never fixed play ground is so old now and has nothing done to it. Some of the playground equipment should go to other playgrounds and then a whole new one should be installed make Ashburton a place people want to stop with there families

Q12 **Would you like to give feedback on individual reserve(s) managed by Reserve Boards?**

Huntingdon Ave Playground Reserve

Q23 **Let us know your thoughts on the park(s) or reserve(s) you have selected above?**

Long Text

Lake hood is a beautiful spot but alot of people come out and use the lake and the lake is far to small needs to be dug out and made alot bigger for saftey reason
People come from chch and timaru for day trips coz its close instead of having to drive to the high country
The rowering could be moved to have its own area and then join the two lakes together up the top end and make it massive yes cost would be high but would bring heaps of people to town as people like getting there boats and families out

Long Text

The Pendarves Reserve Board supports the plan, but would like to make some points as below.

Tennis courts - We have submitted quotes for renewing of the surface to the district council's Long Term Plan.

Income - We have a small income from a licence to occupy with the fire brigade.

Recycling - Before any decision is made on the location of the recycling facilities, we would like to discuss this as a board. The current location provides good community access.

Health New Zealand
Te Whatu Ora

31 July 2024

Ashburton District Council
PO Box 94
Ashburton 7740

Tēnā koutou,

Submission on the Ashburton District Reserve Management Plan Consultation

1. Thank you for the opportunity to submit on the Ashburton District Reserve Management Plan Consultation. This submission has been compiled on behalf of the National Public Health Service (NPHS) Te Waipounamu Region, Health New Zealand - Te Whatu Ora. NPHS Te Waipounamu services the South Island including Hakatere Ashburton.

2. NPHS recognises its responsibilities to improve, promote and protect the health of people and communities of Aotearoa New Zealand under the Pae Ora (Healthy Futures) Act 2022 and the Health Act 1956.

3. Pae Ora requires the health sector to protect and promote healthy communities and health equity across different population groups by working together with multiple sectors to address the determinants of health.

4. NPHS Te Waipounamu is focused on equitable health outcomes. The Ministry of Health defines equity as:

   "In Aotearoa New Zealand people have differences in health that are not only avoidable, but unfair and unjust. Equity recognises different people with different levels of advantage require different approaches and resources to get equitable health outcomes." [1]

5. This submission sets out particular matters of interest and concern to NPHS Te Waipounamu.

[1] Ministry of Health – Manatū Hauora (2024, July 2). *Achieving equity*. https://www.health.govt.nz/about-ministry/what-we-do/achieving-equity

General Comments

6. We welcome the opportunity to comment on the Ashburton District Reserve Management Plan Consultation.

7. Health and wellbeing are influenced by a wide range of factors beyond the health sector. These factors are often referred to as the 'social determinants of health', and can be described as the environmental, economic, and social conditions in which people are born, grow, live, work and age.[2] The diagram[3] below shows how the various influences on health are complex and interlinked.

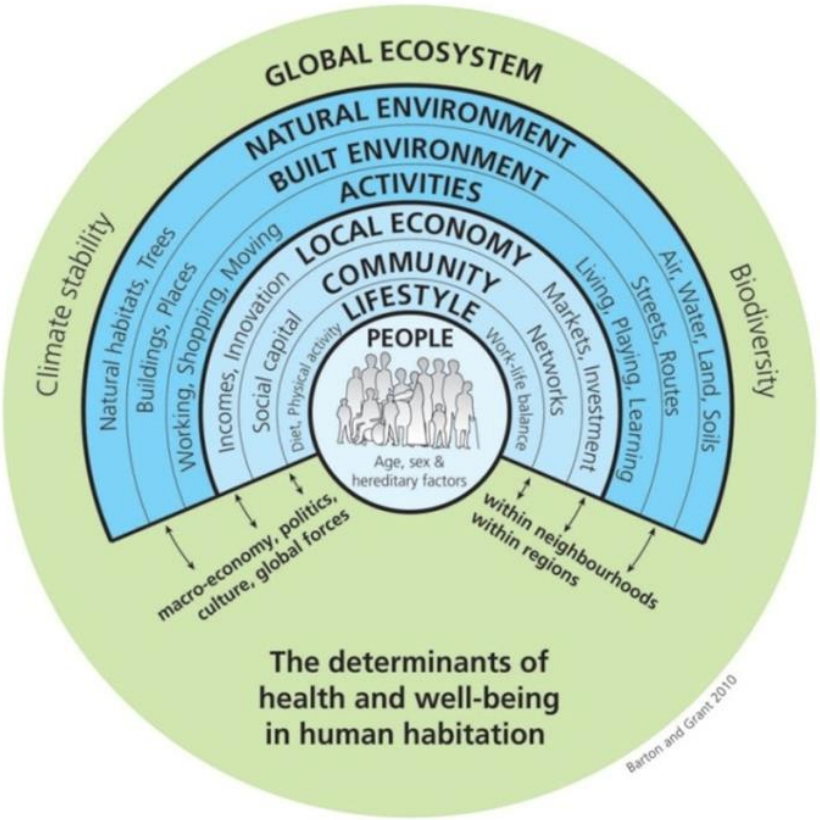

Figure 1: Social determinants of health

8. Access to natural environments is a determinant of health. Green and blue spaces can benefit mental and physical health by reducing stress, lowering blood pressure, improving mood, encouraging physical activity and promoting social connection.[4]

9. We commend Council for recognising reserves as a major contributor to health and wellbeing in the Draft Reserve Management Plan. Health outcomes are dependent on the collective and organised efforts of society, including organisations beyond the health sector, such as local government.[5]

Specific Comments

10. NPHS Te Waipounamu commends Council for drafting a comprehensive Reserves Management Plan that takes a consistent and coordinated management approach to the district's reserves. We particularly support the inclusion of content about climate change and Council's engagement with mana whenua. We have some suggestions on how to further strengthen the plan to improve health and equity outcomes.

11. We have made comments about specific parts of the plan under headings from the Draft Reserve Management Plan Volume 1: General Policies.

1.3 About the Ashburton District

12. We support the recognition of mana whenua in the Draft Reserve Management Plan and the recognition of historic and territorial rights of mana whenua in Hakatere Ashburton.

1.6 Trends and Issues Impacting Reserve Use and Management

13. NPHS Te Waipounamu supports the acknowledgement of the effects that climate change will have on reserve management. It is important to plan for and adapt to climate change to protect and promote the health and wellbeing of the population in the Ashburton District. Climate change impacts health directly through exposure to climate hazards causing injuries and death, and indirectly through greater risk of some diseases, food insecurity,

[4] Turner-Skoff, J. B., & Cavender, N. (2019). The benefits of trees for livable and sustainable communities. *Plants, People, Planet,* 1(4), 323-335.

community displacement, damage to infrastructure and loss of employment, amongst many other things.[6]

14. We also support Council's commitment to providing potable water, a fundamental determinant of health. Water is a healthy alternative to sugary drinks. Free access to potable drinking water may contribute to reducing the demand for single use plastic bottles, which may go to landfill.

1.7 Process to develop the management plan

1.7.2 Engagement with Mana Whenua

15. NPHS Te Waipounamu supports the inclusion of information about engagement with mana whenua in the Draft Reserve Management Plan. We encourage Council to continue to have early and meaningful engagement with mana whenua on reserve management to reflect Council's commitment to Te Tiriti o Waitangi and uphold the rights of mana whenua.

16. NPHS Te Waipounamu supports the inclusion of feedback from mana whenua. We suggest that Council provides more information about how this feedback was collected, how this feedback has informed the Draft Reserve Management Plan, and how the Council will act on this feedback.

2.2 Statutory Frameworks

2.2.1 Te Tiriti o Waitangi/Treaty of Waitangi

17. NPHS Te Waipounamu recommends that Council provides more information about Te Tiriti principles included in the Draft Reserve Management Plan. The plan refers to the principles of Partnership, Informed decision making and Active protection as the most likely to be relevant to decision making in the management of reserves. We note that these three principles are also referred to in other sections of the Draft Reserve Management Plan. However, it is unclear where these principles have been selected from. Te Tiriti principles should be considered as a whole rather than separately due to the overlaps and synergies between them.

[6] ,Te Mana Ora. (2023). Climate Change and Health in Waitaha Canterbury: A scoping and profiling report to inform Health Impact Assessment. Ōtautahi Christchurch: Te Whatu Ora, Te Mana Ora, National Public Health Service. https://www.cph.co.nz/wp-content/uploads/ClimateChangeHealthWaitahaCanterbury.pdf

18. The WAI 2575 Hauora Report of Health Services and Outcomes Kaupapa Inquiry released in 2019 recommended that the 3P's (Partnership, Protection and Participation) be updated to Tino Rangatiratanga, Equity, Active Protection, Options and Partnership.[7]

19. In addition, we note the description of Partnership included in the Draft Reserve Management Plan does not define who should 'act towards each other reasonably'. We suggest that Council adds more information about the partners referred to in the definition of Partnership.

2.3 Regional and Local Planning Framework and Policies

2.3.8 Naming Policy

20. As aligned with the intent of partnership, mana whenua should be prioritised for consultation when naming roads, open spaces and rights-of-way in the district.

3.2 General Reserves and Open Space Network Policies

3.2.1 Mana Whenua Partnerships

21. NPHS Te Waipounamu strongly supports the partnership focused policies to work with mana whenua. Mana whenua are kaitiaki of the whenua, and mātauranga Māori can provide key knowledge to support culturally responsive decision making to protect and restore the environment.

22. We particularly support the policy to explore opportunities towards mana whenua expressions of identity through using te reo Māori names and te ao Māori design at reserves. And, to acknowledge the mana whenua connection to place through storytelling. Using te reo Māori and storytelling at reserves can promote wellbeing, and greater public awareness of the history of mana whenua in the district and Māori tikaka and taoka.

23. NPHS Te Waipounamu also supports the policy to promote mahika kai practices. Sustaining indigenous species through practices such as mahika kai has benefits for environmental wellbeing, as well as benefits for social, spiritual and cultural wellbeing.

3.2.3 Biodiversity

24. NPHS Te Waipounamu supports the policies to restore, protect and enhance biodiversity. Natural environments provide many health and wellbeing benefits, including mitigating

[7] Waitangi Tribunal (Te Rōpū Whakamana i te Tiriti o Waitangi). (2019). *Hauora: Report on Stage One of the Health Services and Outcomes Kaupapa Inquiry*. WAI 2575. Wellington: Department of Justice. Accessed from: https://ndhadeliver.natlib.govt.nz/delivery/DeliveryManagerServlet?dps_pid=IE49787177

against negative impacts of climate change. For example, natural environments can limit flood damage by slowing and storing water and countering the effects of extreme heat.

3.2.5 Climate Change and Natural Hazards

25. NPHS Te Waipounamu strongly supports the climate change policies. Taking action to mitigate and adapt for climate change is important to support health, wellbeing and equity outcomes.

26. We particularly support the policy to enable the use of sustainable transport to reserves. In addition to reducing carbon emissions, the use of sustainable transport options has benefits for health such as improving air quality, reducing noise and increasing physical activity. We recommend that Council puts infrastructure and services in place to support the use of sustainable transport options, such as bike racks, public transport services, and education campaigns.

27. NPHS Te Waipounamu recommends that Council integrates these transport policies with the goals of Walking and Cycling Strategy 2020-2030. Providing a quality, accessible and fit for purpose walking and cycling network can support more people to travel to reserves using sustainable transport. For example, it is important for paths to have even and stable surfaces and to be an appropriate width for people walking and cycling. The PARCS tool referenced below is a useful tool for planning walking and cycling networks.

28. NPHS Te Waipounamu encourages Council to consider adding a policy regarding planning for and proactively responding to climate change at reserves. Measures taken to prepare for and adapt to climate change could include providing more shade and drinking fountains, increasing the watering of plants and increasing drainage of sports fields.

3.3 Recreation and Use Policies

3.3.2 Access

29. NPHS Te Waipounamu supports the policies to make reserves accessible for many different users. Disabled people and people with limited mobility often face barriers to accessing natural environments and therefore the health and wellbeing benefits that reserves offer. Walkways, play equipment, toilet facilities, signs, buildings and other structures should be accessible to disabled people and people with diverse needs.

30. We recommend that Council uses the PARCS tool[8] when planning the accessibility of reserves. This tool is a checklist to ensure the accessibility and usability of toilets, rest areas, play areas, paths, car parks and bus routes.[9] The PARCS tool has been sent to Council in addition to this submission.

31. We suggest that Council commits to providing bike stands at reserves rather than considering to provide bike stands. Providing infrastructure is important to support cycling to and within reserves and encourage people to choose sustainable modes of transport.

3.3.3 Sports and Active Recreation

32. We support policies to provide spaces for sports and recreation at reserves. These facilities have the potential to improve community resilience and support physical and mental health and wellbeing by providing places for people to meet, be active and participate within their community.

3.3.4 Play

33. Similarly, we support policies to develop and provide play facilities. Playgrounds and other spaces for play can encourage physical activity and social interaction, providing benefits for community connectedness and mental wellbeing.

34. NPHS Te Waipounamu has created guidance on making playgrounds accessible and can share this with Council on request.

3.4 Development Policies

3.4.1. General Reserve Development

35. NPHS Te Waipounamu supports policies to consider using universal design principles and Crime Prevention Through Environmental Design (CPTED) principles in the development of reserves. Both design approaches can support health and wellbeing outcomes by creating accessible, safe and attractive environments where people are enabled to spend time and be active. Universal design principles are concerned with designing environments to be used by all people, no matter their age, size, ability or disability.[10] Built environments that are accessible to people at different stages of life and with different abilities is particularly important in an aging population. Crime Prevention Through Environmental

---

[8] PARCS stands for Parks for Activity in the Community Study

9 Perry, M. A., Devan, H., Fitzgerald, H., Han, K., Liu, L. T., & Rouse, J. (2018). Accessibility and usability of parks and playgrounds. *Disability and health journal*, 11(2), 221-229.

[10] Centre for Excellence in Universal Design, (2024). *About Universal Design.* Accessed from: https://universaldesign.ie/about-universal-design

Design (CPTED) is another design approach that creates places that are less susceptible to crime and enable people to feel more comfortable outdoors.[11]

3.4.6 Signs and Interpretation

36. NPHS Te Waipounamu recommends that Council restricts the types of advertising that are permitted on reserves. The advertisement of commercial determinants of health, such as tobacco, alcohol and unhealthy food, can have negative health impacts.

37. We recommend that Council bans alcohol sponsorship at reserves. Restricting alcohol marketing, including sports sponsorship, is a highly effective and cost-effective measure to reduce alcohol harm. Exposure to alcohol marketing can lead to an earlier drinking onset and heavier drinking by young people. In addition, exposure to alcohol sports sponsorship is associated with heavier alcohol consumption by children and adult sporting participants.[12] [13] Recognising the harms of alcohol sponsorship, Sport Canterbury have initiated a Healthy Sports Club project to look at healthier funding and sponsorship options. [14]

3.5 Administration Policies

3.5.6 Public Health and Safety

38. We encourage Council to consider increasing the number of reserves that are smokefree and vapefree. As stated in the General Policies document, there are 120 reserves in the Ashburton District and not all of these are covered by the Smokefree Outdoor Areas Policy. Smokefree public spaces are an important component of the national plan to achieve a smokefree New Zealand by denormalising smoking. This is especially important in places where children and young people congregate. There are also environmental benefits to being smokefree including a reduction in litter. We support the use of signage to promote smokefree and vapefree policies.

Section A1 - Approachability to the park –Parking Spaces and bus routes (Please circle how accessible are they for the following?)	
Does the facility have a parking lot, parking structure, or parking area? (not scored) If No then score No from Q1 to Q9	**Yes No**
1. Are there any accessible car parks?	**Yes No**
2. Do parking spaces have signage for an accessible car park?	**Yes No**
3. Do parking spaces that are designated as accessible have a clear width* of at least 3.5m?	**Yes No**
4. Do parking spaces that are designated as accessible have a clear length* of at least 5m?	**Yes No**
5. If parking spaces marked as accessible have access aisles, do they have a clear width of at least 1m?	**Yes No**
6. Are the surfaces firm and stable to accommodate a wheelchair in all weather?	**Yes No**
7. Are accessible parking spaces kept free from obstacles?	**Yes No**
8. Does the facility have a ticket machine for parking lot access?	**Yes No**
9. If the facility parking lot(s) use ticket machines, can the driver obtain the ticket while remaining seated on the driver's side of the car?	**Yes No**
10. How far away is the closest bus stop from the main entrance of the park? (> 20m = No)_____m	**Yes No**
*Any safety concerns: Other comments:	

A2 Path surfaces (Please circle how accessible are they for the following?)	
Scoring	
11. Are the main paths to areas (playgrounds/toilets/water fountains) wider than 1.5m?	**Yes** **No**
12. Are there tactile markers to denote changes in path direction?	**Yes** **No**
13. Are the surfaces regular/even? Please mark NO if there are irregular surfacing, joins, sloping sections, cracks, holes, 5mm or more	**Yes** **No**
14. Are the surfaces stable? Please mark NO if the surface contains loose gravel, sand, bark, clay etc	**Yes** **No**
15. Routes without steps?	**Yes** **No**
16. Low kerbs (<4cm)?	**Yes** **No**
17. Are the gradients of all the kerb ramps <1:8? (must be less than 7.1 degrees or 12%)	**Yes** **No**
18. Are the gradients of the paths in the park less than 1:14? (must be less than 4.1 degrees or 7%) *HINT: Even a small portion of the path with a gradient greater than this may make this path unusable. Consider someone self-propelling a wheelchair.*	**Yes** **No**
19. Are there handrails on paths with steep gradients in the park?	**Yes** **No**
20. Presence of lighting along main paths? Please mark NO if there is no/poor/uneven/dazzling lighting along the circulation paths	**Yes** **No**
*Any safety concerns (e.g. unstable surface, broken glasses or metals on the floor) Other comments	

Section B1 Play areas and equipment usability (Please circle how accessible are they for the following?)	
Does the facility have a play area? (not scored) **If no go to next domain.**	**Yes** **No**
1. Are there separate play areas for different age groups?	**Yes** **No**
If no, continue on to main play equipment section. If yes, complete main play equipment and pre-school play equipment section	
Main play equipment section	
2. Are the play areas fenced (greater than 1.2 metres)?	**Yes** **No**
3. Number of ground level play components? *HINT: What can be reached from the ground. Ramps, transfer systems, steps, decks, and roofs are not considered play equipment. A play component is an element designed to generate specific opportunities for play, socialization, and learning. Play components may be manufactured or natural, and may be stand alone or part of a composite play structure. Swings, spring riders, water tables, playhouses, slides, and climbers are among the many different play components*	
a. All ground level play components are accessible *HINT: Consider if this is a 'boxed' area or whether some ground level components are blocked.*	**Yes** **No**
b. Are the accessible routes to ground level play components at least 1.5m wide?	**Yes** **No**
c. Are the surfaces regular/even? *Please mark NO if there are irregular surfacing e.g. tiles lifting up, uneven joins, sloping sections, cracks, holes, 5mm or more*	**Yes** **No**
d. Are the surfaces stable? *Please mark NO if you the surface contains loose gravel, wood chips, sand clay etc*	**Yes** **No**

Main play equipment section (contd) (scoring)	
4. Number of elevated play components? *HINT Ramps, transfer systems, steps, decks, and roofs are not considered play equipment. A play component is an element designed to generate specific opportunities for play, socialization, and learning. Play components may be manufactured or natural, and may be stand alone or part of a composite play structure e.g. Swings, spring riders, water tables, playhouses, slides, and climbers.*	
a. At least 50% of the elevated play components must have an accessible route *HINT: Consider ramps of natural topography to allow other to the top levels*	**Yes** **No**
b. Are the elevated access routes 0.9m wide?	**Yes** **No**
c. Is the height of handrail gripping surface between 0.5m to 0.7m from the ground? *HINT: Handrails are different from guardrails. Handrails are to help children balance whereas guardrails are to prevent children falling*	**Yes** **No**
d. Is there a manoeuvrable space of 1.5m wide present in the access route?	**Yes** **No**
e. Are ramps to the elevated equipment present?	**Yes** **No**
f. If ramps are present, are they 0.9m wide with handrails?	**Yes** **No**
g. If ramps are present, the landings must be at least 1.5m wide	**Yes** **No**
h. Are transfer steps present to enable access to elevated equipment present *HINT: (i.e. large flat areas/platforms to allow access to higher structures)*	**Yes** **No**
i. If transfer steps are present, the minimum width of transfer platforms must be 0.61m	**Yes** **No**
j. If transfer steps are present, the height of transfer platforms between 0.45m to 0.28m	**Yes** **No**
k. If transfer steps are present, are there unobstructed sides to the transfer platforms?	**Yes** **No**
l. If transfer steps are present, is the maximum height of transfer steps 0.2m?	**Yes** **No**
5. Are there play areas or items which require stepping into or crawling into *(e.g. tunnel or bubble window)*	**Yes** **No**
6. If there are items which require being stepped into, is the bottom lip between 0.28m to 0.6m? *HINT: e.g. is the bottom lip of a tunnel between 0.28m to 0.6m off the ground?*	**Yes** **No**
7. Are there play tables? HINT: Play tables are surfaces, boards, slabs, or counters that are created for play.	**Yes** **No**

8. If there are play tables, are they a minimum of 0.61m height X 0.76m wide X 0.43m depth?	**Yes**	**No**
9. Do the reach ranges to play components satisfy the following criteria		
a. 0.5m to 0.91m for 3 to 4 year-olds?	**Yes**	**No**
b. 0.45m to 1m for 5 to 8 year-olds	**Yes**	**No**
c. 0.4m to 1.1m for 9 to 12 year-olds	**Yes**	**No**
10. Visual information		
a. Are there high contrast colours between play equipment and the orientation path?	**Yes**	**No**
b. Are there high contrast colours to indicate different heights?	**Yes**	**No**
c. Are the colours of the surfacing material different within and outside a fall zone? *HINT: the fall zone is the area under and around a piece of equipment where a child might land or exit that equipment.*	**Yes**	**No**
*Any safety concerns (e.g. rust, maintenance issues in play equipment and play area)? Other comments		

Main Playground. Sensory stimulation/Play richness (Please circle how accessible are they for the following?)	
11. Vestibular stimulation (Please circle how accessible are they for the following?)	
a. Spinning	**Yes** **No**
b. Sliding	**Yes** **No**
c. Sliding- the ability to slide two people side by side	**Yes** **No**
d. Rocking	**Yes** **No**
e. Swing – Presence of full body support swing (e.g. nested swing)	**Yes** **No**
f. Climbing/Crawling	**Yes** **No**
12. Visual stimulation	
a. Is there equipment which provides visual stimulation (e.g. coloured lights/mirrors/black and white)	**Yes** **No**
13. Olfactory stimulation	
a. Plants/herbs to stimulate smell	**Yes** **No**
14. Tactile stimulation	
a. Is there play equipment providing opportunities for tactile stimulation (e.g. rocks/sand/dirt/water/rice/grass/mirrors/marbles)	**Yes** **No**
15. Auditory stimulation	
a. Is there play equipment providing auditory stimulation (e.g. echoes/chimes/talking tubes)	**Yes** **No**

Pre_school play equipment section (Please circle how accessible are they for the following?)	
16. Are the play areas fenced (greater than 1.2 metres)?	**Yes** **No**
17. Number of ground level play components? *HINT: What can be reached from the ground. Ramps, transfer systems, steps, decks, and roofs are not considered play equipment. A play component is an element designed to generate specific opportunities for play, socialization, and learning. Play components may be manufactured or natural, and may be stand alone or part of a composite play structure. Swings, spring riders, water tables, playhouses, slides, and climbers are among the many different play components.*	
a. All ground level play components are accessible *HINT: Consider if this is a 'boxed' area or whether some ground level components are blocked.*	**Yes** **No**
b. Are the accessible routes to ground level play components at least 1.5m wide?	**Yes** **No**
c. Are the surfaces regular/even? *Please mark NO if there are irregular surfacing e.g. tiles lifting up, uneven joins, sloping sections, cracks, holes, 5mm or more*	**Yes** **No**
d. Are the surfaces stable? *Please mark NO if you the surface contains loose gravel, wood chips, sand clay etc*	**Yes** **No**
18. Number of elevated play components? *HINT Ramps, transfer systems, steps, decks, and roofs are not considered play equipment. A play component is an element designed to generate specific opportunities for play, socialization, and learning. Play components may be manufactured or natural, and may be stand alone or part of a composite play structure e.g. Swings, spring riders, water tables, playhouses, slides, and climbers.*	
19. At least 50% of the elevated play components must have an accessible route *HINT: Consider ramps of natural topography to allow other to the top levels*	**Yes** **No**
a. Are the elevated access routes 0.9m wide?	**Yes** **No**
b. Is the height of handrail gripping surface between 0.5m to 0.7m from the ground? *HINT: Handrails are different from guardrails. Handrails are to help children balance whereas guardrails are to prevent children falling.*	**Yes** **No**
c. Is there a manoeuvrable space of 1.5m wide present in the access route?	**Yes** **No**
d. Are ramps to the elevated equipment present?	**Yes** **No**
e. If ramps are present, are they 0.9m wide with handrails?	**Yes** **No**
f. If ramps are present, the landings must be at least 1.5m wide	**Yes** **No**
g. Are transfer steps present to enable access to elevated equipment present *HINT: (i.e. large flat areas/platforms to allow access to higher structures)*	**Yes** **No**
h. If transfer steps are present, the minimum width of transfer platforms must be 0.61m	**Yes** **No**

i.	If transfer steps are present, the height of transfer platforms between 0.45m to 0.28m	**Yes** **No**
j.	If transfer steps are present, are there unobstructed sides to the transfer platforms?	**Yes** **No**
k.	If transfer steps are present, is the maximum height of transfer steps 0.2m?	**Yes** **No**
l.	Are there play areas or items which require stepping into or crawling into *(e.g. tunnel or bubble window)*	**Yes** **No**
20.	If there are items which require being stepped into, is the bottom lip between 0.28m to 0.6m? *HINT: e.g. is the bottom lip of a tunnel between 0.28m to 0.6m off the ground?*	**Yes** **No**
21.	Are there play tables? HINT: Play tables are surfaces, boards, slabs, or counters that are created for play.	**Yes** **No**
22.	If there are play tables, are they a minimum of 0.61m height X 0.76m wide X 0.43m depth?	**Yes** **No**
23.	Do the reach ranges to play components satisfy the following criteria	
24.	0.5m to 0.91m for 3 to 4 year-olds?	**Yes** **No**
a.	Visual information	
25.	Are there high contrast colours between play equipment and the orientation path?	**Yes** **No**
a.	Are there high contrast colours to indicate different heights?	**Yes** **No**
b.	Are the colours of the surfacing material different within and outside a fall zone? *HINT: the fall zone is the area under and around a piece of equipment where a child might land or exit that equipment.*	**Yes** **No**
*Any safety concerns (e.g. rust, maintenance issues in play equipment and play area)?		

Pre-School Playground. Sensory stimulation/Play richness (Please circle how accessible are they for the following?)	
Vestibular stimulation	
26. Spinning	**Yes** **No**
a. Sliding	**Yes** **No**
b. Sliding- the ability to slide two people side by side	**Yes** **No**
c. Rocking	**Yes** **No**

d. Swing – Presence of full body support swing (e.g. nested swing)	**Yes** **No**
e. Climbing/Crawling	**Yes** **No**
f. Visual stimulation	
27. Is there equipment which provides visual stimulation (coloured lights/mirrors/black and white)	**Yes** **No**
28. Olfactory stimulation	
a. Plants/herbs to stimulate smell	**Yes** **No**
29. Tactile stimulation	
a. Is there play equipment providing opportunities for tactile stimulation (rocks/sand/dirt/water/rice/grass/mirrors/marbles)	**Yes** **No**
30. Auditory stimulation	
a. Is there play equipment providing auditory stimulation (echoes/chimes/talking tubes)	**Yes** **No**

B2 - Rest areas (Please circle how accessible are they for the following?)	
Scoring	
21. Are there places to sit/rest present? **If no, please go to next section**	**Yes** **No**
22. Are there places to sit/rest present near children play area?	**Yes** **No**
23. Types of sit/rest places: (circle all that apply)	Benches/Tables/Other
24. Presence of arm rest?	**Yes** **No**
25. Does the seat height follow minimum recommendations (i.e.) between 0.35m to 0.52m?	**Yes** **No**
26. Are there suitable places next to the seating for a wheelchair to also be placed?*(Consider inclusion/slopes/terrain surface)*	**Yes** **No**
27. Are there quiet places for adults and children to relax/have peace/or be less stimulated	**Yes** **No**
*Any safety concerns (e.g. splinters, rust, missing planks) Other comments	

B3 – Restrooms (Please circle how accessible are they for the following?)	
Does the facility have a restroom? **If no, go to next domain.**	**Yes** **No**
31. Is the route to the toilet accessible?	**Yes** **No**
32. Do the doors of restrooms have power assist*?	**Yes** **No**
33. Is a pushbutton available to open the doors?	**Yes** **No**
34. Do the restroom doors open automatically?	**Yes** **No**
35. Do restroom doors have a clear width* greater than 0.8m?	**Yes** **No**
36. Is there an unobstructed turning radius of at least 1.5m in front of restroom doors?	**Yes** **No**
37. Do toilet stall doors have a clear width* of at least 0.9m?	**Yes** **No**
38. Do toilet stall doors swing towards the area outside of the stall?	**Yes** **No**
39. Are accessible toilet stalls at least 1.5m wide and at least 1.5m long/deep?	**Yes** **No**
40. Is the distance from the centre of the toilet to the stall wall at least 0.45m?	**Yes** **No**
41. Are flush controls mounted 1.1m or less above the floor?	**Yes** **No**
42. Is the toilet seat 0.4 to 0.5m high from the floor?	**Yes** **No**
43. Is the centre of toilet paper dispensers 0.5m or less from the floor?	**Yes** **No**
*Any safety concerns (e.g. rust, maintenance issues, slippery floor) Other Comments	

B4 Drinking fountain (scoring) (Please circle how accessible are they for the following?)	
Does the facility have a drinking fountain? **If no mark all in this section no**	**Yes** **No**
44. Are water fountain controls operable without the need for tight grasping, pinching, or twisting of the wrist?	**Yes** **No**
45. Are water fountain controls on the front or side of the unit?	**Yes** **No**
46. Is there a clear floor space in front of the unit that is at least 0.75m wide AND at least 1.2m long/deep?	**Yes** **No**
47. . Is there at least 0.45m of clearance space (measured from the wall) beneath the water fountain to allow for wheelchair access?	**Yes** **No**
48. Is the spout height 0.9m or less as measured from the floor to the spout outlet?	**Yes** **No**
49. Are the bottoms of water fountains 0.6m or more from the ground?	**Yes** **No**
50. Are they mounted at different heights, serving seated and standing users?	**Yes** **No**
*Safety concerns (rust, guttering) Other comments	

General notes and other comments about the facility:

Note: * The inter-rater reliability of safety comments was not evaluated

Q28 **Rural reserves in the Western Ward are mentioned in the list below.**

Multi Choice Ōtuatari / Lake Camp

Q29 **Let us know your thoughts on the reserve(s) you have selected above?**

Long Text Lake Camp/Clearwater area has been our playground for our family since the mid-sixties. We have fished in both lakes, windsurfed on Clearwater and boated and skied on Lake Camp. Our family have been involved with the Aquatic Club and have skied at national level. Now our grandchildren have begun using the lake.
The lake level as it is now very concerning as even though Ecan and DOC seem to be not concerned of this and are turning their backs on this. Our family are only a handful of the users and visitors that enjoy Lake Camp facilities but the possibility of this is rapidly deteriorating.
ADC has been very proactive in improving access and providing infrastructure around Lake Camp and has become a great camping area.
With the water level at a very low state, it will create undesirable issues with vehicles trying to launch boats as no ramp access, 4 wheel drive and motor bikes churning up muddy surrounds , the smell of stagnant water.
Safety issues if too many boats and skiers. The beauty of the area will be gone!
There has been a small creek flowing down from the Balmacaan as long as I remember, and it had a control gated outlet from the mainstream which was consented by ?? The lake has always had a small amount of fluctuation from the seasonal periods but never of a real concern. Sometimes the water channel at the gate needed to be improved to provide water to this stream.
As the consent for the gate has lapsed, we ask that the ADC apply for the consent so that we may be able to maintain and enjoy Lake Camp as normal.

Q30 **Would you like to give feedback on any individual rural reserve(s) in the Eastern Ward?**

Multi Choice No

Q32 **Let us know your thoughts on the reserve(s) you have selected above?**

Long Text

Big puddles often prevent access to the viewing platform overlooking the Hakatere River mouth at Ashton Beach.
The road that exits needs improvement.
There are lots of vehicle tracks past the bird sanctuary No Go signs.
Shattered glass (hazardous) on roadsides should be reported by council vehicles please as it remains for undue lengths of time. (e.g. Alford Forest Road and other suburban areas).

Q33 **Do you have any other comments?**

Long Text

I recently had a 9 year old at Lake Hood needing to go to the toilet, but found the loo unsuitable, is it possible to add a child friendly toilet of smaller dimensions please.

3.5.9 Bylaws & Enforcement - Support
3.5.10 Waste Management - Support

socialpinpoint

Q10 **Would you like to further comment on any of the individual policy?**

Long Text

Waste management is tricky. We shouldn't need to have waste management in an ideal world. Commemorative trees --- need to be suitable for area they are planted in.

Q11 **Would you like to give feedback on Ashburton Domain & Gardens?**

Long Text

Look O K.

Q12 **Would you like to give feedback on individual reserve(s) managed by Reserve Boards?**

Multi Choice

Yes

Q13 **Please choose from reserves managed by Reserve Boards.**

Multi Choice

Mount Somers Domain

Q14 **Let us know your thoughts on the reserve(s) you have selected above?**

Long Text

Mt Somers Domain. Seems to be well managed & free of vandalism.

Q15 **Would you like to give feedback on any individual park(s) and reserve(s) in Tinwald?**

Multi Choice

No

Q16 **Parks and reserves in Tinwald are listed below.**

Multi Choice

Q17 **Let us know your thoughts on the park(s) or reserve(s) you have selected above?**

Long Text

Q18 **Would you like to give feedback on any individual park(s) and reserve(s) in Ashburton?**

Multi Choice

No

Q19 **Reserves and parks in Ashburton are mentioned in the list below.**

Multi Choice

Q20 **Let us know your thoughts on the park(s) or reserve(s) you have selected above?**

Q6 **Would you like to further comment on any of the individual policy?**

Long Text

6. Support commercial use with strict control
8. Not fireworks
9. Do not support. Definitely no freedom camping use registered camping grounds.

Q7 **Please indicate what you think about Development Policies in the plan?**

Matrix

3.4.1 General Reserve Development - Support
3.4.2 Buildings and Structures - Support
3.4.3 Car Parking - Support
3.4.4 Lighting - Support
3.4.5 Reserve Furniture - Support
3.4.6 Signs & Interpretation - Support
3.4.7 Fencing - Support

Q8 **Would you like to further comment on any of the individual policy?**

Long Text

2. Buildings & Structures: Don't fill with buildings and structures - keep it as a reserve , some reserves will need toilet facilities but not all.
7. Fencing: Don't overdo the fencing, its important to have some for safety reasons.
Kiosk on state highway 1 opposite the Racecourse has a broken fence from the weight of the trees before they were limbed up.
Serious safety issues here with the speed of trains passing at 80km. Childern are impulsive and run to see the train with no protection - its a serious accident waiting to happen.
This is not a big job - replace some broken fence posts as reattach the existing wire - job done.

socialpinpoint

Litter-Free Ashburton volunteers strongly support this job to be addressed.

Q9 **Please indicate what you think about Administration Policies in the plan?**

Matrix

3.5.1 Naming of Reserves - Support
3.5.2 Gifts & Memorials - Support
3.5.3 Commemorative Trees - Support
3.5.4 Encroachments - Support

3.5.8 Fire Control - Support
3.5.9 Bylaws & Enforcement - Support
3.5.10 Waste Management - Support

Q10 **Would you like to further comment on any of the individual policy?**

Long Text

1. Naming: As long as the public are consulted and not just one group having all the say.
4. Encroachments: No encroachments onto reserves.

Q11 **Would you like to give feedback on Ashburton Domain & Gardens?**

Long Text

Ashburton Domain Playground:
There is a very strong support for the Ashbruton Domain playground to receive further upgrading and modernising in line with other public playgrounds around the country.
An excellent playground to be a model for Ashburton is the Foster Park playground at Rolleston. It's well planned, spacious, and all inclusive e.g. wheelchairs, push chair access. We need our playground to be more user friendly across all age groups and abilities. An area as part of the overall plan needs to cater for the preschoolers as well.

All the wooden edges and all the bark chip which gets scattered everywhere needs to be removed and replaced with colourful and patterned rubber Numat. I strongly recommend that appropriate Council staff along with some Litter-Free Ashburton volunteers visit Foster Park Rolleston to have a look at what's on offer and this would then involve our local community in having a say and keep the community involved as part of the decision making. Grants could then be looked as e.g. Lions, Braided Rivers Community Trust to help fast track this project which would be a very welcome asset for Ashburton.
Look at the nation wide company CREO - Playground Design & Build.
CREO were involved with Timaru's Caroline Bay's new playground.

Kiosk on State Highway 1 opposite Racecourse - Works Road. This area has had huge problems with illegal dumping but work done by the Council Open Spaces team on limbing up of the trees has improved the area with less illegal dumping.
The limbing up of all the trees including the ones on the boundary of the railway needs to be finished and cleared away from the Kiosk right up to Works Road.

This is an area Litter-Free Ashburton volunteers constantly work on to keep the approach to Ashburton Litter-Free. We want the East side of the highway to look as kept as the West side of the highway and with the planting spring bulbs on both sides and good Welcome to Ashburton signs it will show we pride ourselves in having a beautiful

socialpinpoint

town.

Welcome to Ashburton signs North and South of Ashburton must go out to the public for consultation not just to the Council staff and councillors.

The signs should represent Ashburton as a farming district. We do not approve the signage that Council staff are looking at. Our welcome signs must be a talking point and provide opportunities for tourists to take photos. NB all towns around NZ have very noticeable signs of welcome, it puts the town on the map for tourism.

Litter-Free Ashburton volunteers, the Lions, Grey Power and Senior Citizens have all discussed the type of design that is included in this submission. None of the said group were in favour of the previous design chosen by the Council. NB shop local is what Council advocate and this is what we are asking for - Listen to the Community.

Funding from Tourism Infrastructure Fund. Ashburton Lions etc. SHOP LOCAL. See attachment

Long Text

I completely endorse Alison's submission. In addition I add the following comments.

The Greenstreet Hall is very fortunate to have an active committee who care deeply about the hall. Over many years we have worked tirelessly to fund-raise to maintain and improve the hall and grounds. The hall is now in a very favourable financial position.
If this voluntary work had not been done the hall would now be in a very sad state of repair. The committee is all entirely voluntary and as Alison says many aspects where cost and resources is/are involved are absorbed/donated by committee members.
Without the committee this valuable community asset would soon become obsolete and unused.

socialpinpoint

Our visions are clear. To address the ageing tennis court. Work has already started on this project. Maintain our upgraded/consented playground which the kids love to play on. Continue to maintain the hall following required standards and install new heating. Maintain the grounds for the sole purpose of people to enjoy whilst at the hall, continue to have three or four successful fundraising events each year, continue to work closely with ADC to manage the financial aspects of the hall. We do not wish for compliance and regulation to stand in our way and, as a relatively young, agile group of people, we are moving with the times which often means preserving what we once had where people in communities can come together and enjoy the simple pleasures in life. Signage and more trees would not change this and are not required. The hall does not need to be renewed. Rest assured that the quality of that building will ensure it stands long after new ones are falling down.

The issue of the Greenstreet area and the Greenstreet creek did come to a head over summer. The fact that the creek was allowed to run dry was a disgrace. Many people that support the hall also support the creek.
Thanks

Q11 **Would you like to give feedback on Ashburton Domain & Gardens?**

Long Text

Q12 **Would you like to give feedback on individual reserve(s) managed by Reserve Boards?**

Multi Choice

Yes

Q13 **Please choose from reserves managed by Reserve Boards.**

Multi Choice

Greenstreet Domain

Q14 **Let us know your thoughts on the reserve(s) you have selected above?**

Long Text

There are a couple of items on the "to do" list, which are under consideration or have been completed.

1. Re-grass tennis court. The committee have considered to rip up the old & disintegrating asphalt & grass the area. This will be undertaken at a suitable time for the members involved.

2. Mana Whenua to educate the public on the area.
During the late summer of 2024, the Greenstreet creek was drying up, which has rarely occurred, local farmers & residents set about rescuing & relocating the myriad of aquatic life there in. Mana Whenua from Arowhenua were contacted to assist. They had no interest in sending help, nor did they know where Greenstreet was located.

socialpinpoint

3. Playground at the end of useful life?
The committee has undertaken repairs to the playground in recent years, bringing it up to standard, as per council requirements. Just because it is old, it has not run out of "Fun" for the children.

4. Renew Hall ?
The Hall has recently had the power dug underground from the road & a new switch board & lighting installed.

5. Signage
There is no sign to say the place is a reserve. Possibly it should remain that way. The Hall is enclosed by a hedge with little visibility from the road .
Signage could attract undesirables , as has happened in the past, to enter the grounds for unlawful purposes.
Those who wish to use the Hall know where it is.

6. Trees for shade
There are trees by the playground & behind the Tennis shelter, several more have been planted in the last year. It is a slow growing area, being a dry shingle knob . (It remained dry during the flood 2022)

7. On going Maintenance
In 2018, the community rallied & raised funds to re- roof the Hall. We have a relatively young committee, which is physically able to do maintenance.
Much of the general upkeep, i.e, mowing & hedge trimming, gutters etc, are done voluntarily , with associated costs being absorbed by individuals

8. Raising funds
We have several community functions every year which raise money for the hall. There is a steady hireage at present.

Most alarmingly, it now costs us nearly $1,000. just to be connected to the power grid !

Q1 **1. What is your overall opinion of the draft Ashburton District Council Reserve Management Plan?**

Multi Choice

Support

Q2 **Please Explain**

Long Text

I particularly support the emphasis on ensuring the protection and restoration of ecological values which are seriously depleted in Ashburton District and whose remnants are highly valuable.
I also support the opportunity for increased manawhenua acknowledgements, restoration, and exercising of rangatiratanga and kaitiakitanga.

Q3 **Please indicate what you think about general reserve and open space network policies in the plan?**

Matrix

3.2.1 Manawhenua partnerships - Support
3.2.2 Cultural and historic heritage - Support
3.2.3 Biodiversity - Support
3.2.5 Climate Change and Natural Hazards - Support
3.2.6 Sustainability - Support

Q28 **Rural reserves in the Western Ward are mentioned in the list below.**

Multi Choice

Ōtuatari / Lake Camp
Sharplin Falls Recreation Reserve
Valetta Bridge Recreation Reserve

Q29 **Let us know your thoughts on the reserve(s) you have selected above?**

Long Text

1. Ōtuatari/Lake Camp.
Support the approach to protect and restore biodiversity, geological and water values
Support prevention of harmful vehicle access

Acknowledge natural lake fluctuations, and concerns about changing climate and increased droughts on lake levels.
Ensure any activity to protect lake levels is consistent with protecting biodiversity values.
Support aspirations for manawhenua to increase connection to site, e.g. mahika kai, education, nohoanga, etc.
2. Sharplin Falls
Support
3. Valetta Bridge Rec Reserve
Support plans to review grazing; and to protect, restore and enhance existing and past vegetation. Highly important site.

Q30 **Would you like to give feedback on any individual rural reserve(s) in the Eastern Ward?**

Multi Choice

Yes

Q31 **Rural reserves in the Eastern Ward are mentioned in the list below.**

Multi Choice

Ashton Beach Reserves
Harris Scientific Reserve
Wakanui Beach

Q32 **Let us know your thoughts on the reserve(s) you have selected above?**

Long Text

1. Ashton Beach Reserves
Reduce motorised vehicle impacts and provide buffers to protect.
Protect and restore ecological values
Support aspirations of manawhenua at site.
2. Harris Scientific Reserve
Very important site
Imperative to restore and protect the ecological values of drylands
Review use of site for model aero club
3. Wakanui/Whakanui Beach
Support the strong cultural association, including right for manawhenua to correct name
Support cultural and ecological restoration

Q29 **Let us know your thoughts on the reserve(s) you have selected above?**

Long Text

Specific Policy 2, 'Continue to monitor the water quality of the lake to ensure recreational activities on the lake can be safely carried out,' needs to include not only quality but also quantity i.e., lake level.
Currently, the lake level is very low. The safe swimming area is completely dry, posing an increased safety risk of swimmers near boats and likely greater probability of quality issues as summer temperatures rise. The boat ramp became unusable months ago and needs expansion due to users resorting to beach launching. The increasing number of users in recent years (with a peak of almost 50 boats during Waitangi weekend 2022) coupled with the decreased water level significantly reduces the usable area of the lake, raising safety concerns, especially when Lake Hood is unavailable. The Ashburton District Council (ADC) and Environment Canterbury (ECan) need to collaborate to reinstate Fish & Game consents to redirect a portion of the Balmacaan Stream into the lake.

Campers are setting up camp on the southern side of the lake since there is only one 'no camping' sign in the area, and the rocks do not effectively serve as a barrier.

Q33 **Do you have any other comments?**

Long Text

Not more rates increases please. Current level of maintenace is good so well done team. But!! the toilet block at the Ashburton Cemetery is well overdue for an upgrade and is mot fit for purpose. We can do better than that Ashburton.
Thank you.

Long Text

I would like to see the whole playground at West St Walnut Ave corner taken down and new modern playground equipment erected there. The majority of the items there are very old and replacing. There would also be an opportunity to put solid rubber matting underneath the equipment . Mitre 10 have been erecting playgrounds throughout NZ do shy not talk to them and ask for assistance and/or guidance on what works best.

Submission Received on various Reserves and Parks across the district via Social Map

Argyle Park (Volume 4)		
Name		**Submission**
Wendy		• Wonderful playground, but we've had so many bad experiences with being rushed by uncontrolled dogs; "don't worry he's friendly" doesn't cut it when your kid gets bowled over or gets claw scratches on their legs from dogs trying to lick them. • If there must be a dog area near the playground, can we fence the playground and accessway to stay safe from the negligent dog owners?
Contributor 1756		• Crazy not to allow dogs off lead at farm road end especially when you allow neighbours to erect booby traps and there is hardly anyone playing on this area. Iâ€™m sure Mr and Mrs Cabout would agree with this.

Baring Square East (Volume 4)		
Name		**Submission**
Mull		• Baring Square East is a total mish mash that neither tells a story or pleases the eye. A mixture of poor design and placement of plant that has evolved over time into this mess. • The exotic palm trees at the boundaries are hideous and out of place. The mix of shrubs and perennials appear to have arrived at the whim of whoever and it may be the repository of excess plants that have been grown by the Domain and dumped to fill gaps. • The area is now our Front Room. The window to our new Civic building. It needs total revamp and needs to tell something of this district’s history and environment. • Keep a large area of open space for outdoor functions and use our Native Flora in planting areas. Keep the whale bones. Get rid of the trees that obscure and are damaging our only statue of our forefather John Grigg. Please give the statue the remediation that it needs, a disgrace to see the build-up of algae and Lichen over the body of work. • Suggest you use services of locals Val Clemens and/or Edith Smith to draw up plans and source plants. • Get rid of the Mish Mash … hideous.

EANC Open Space (Volume 4)		
Name		**Submission**
Peter Murray		• Land between the EANC and the river at the west end of the Ashburton Industrial area should be made into a reserve with pathways and landscaping to link the north Ashburton River Walk/cycleway with the EANC.

Fairfield Road Reserve (Volume 4)		
Name		**Submission**
Kara		• Return the management & control of this reserve back to the Fairton residents. Public events, safe environment for children, safe place for walking now that the roads around us are not and plenty of other school & community ideas for use :)
Scott		• Let the rate paying residents of Fairton have use of the only large and safe area left in Fairton. Everyone from dog walkers to kids learning to bike miss having the use of this reserve.
Elwyn & Riki		• We have watched 3 generations grow up using this land and believe it was a great loss to the community when the council chose to private lease it out. Please return this to reserve land for the Fairton residents.
Perry Costen		• A community SHOULD have a local place that they can walk/bike/socialise and gather, freely and safely. • Fairton is a unique community which does not have this. • Unlike residents in the town boundary, we are unable to just stroll to a local park or reserve. • More and more large business expansion happening on the doorstep of Fairton residents, means that it is no longer safe to go for a stroll down Fairfield Road or the once usable Works Road (in which residents historically could use but have now been locked out of). • A happy community, is a safe community... and therefore a happy rate payer.

George Glassey Park (Volume 4)		
Name		**Submission**
Helen		• Would be wonderful to see a scooter/bike track here. The school doesn't have the space for it but there is enough kids in the neighbourhood that would really love it. If road markings were added it could be used to teach road safety also.

Wisteria Place Park (Volume 4)		
Name		**Submission**
Richard Mabon		• I have commented separately on Wisteria Place Park via the mapping tool on the website. It is a pleasure to look out on this space and see its enjoyment by the community. • My wife and I have lived opposite Wisteria Place Park for 5-6 years now. It is well used, by families using the playground, by children playing cricket or other games in the open grassed area, and by people walking through Wisteria Place and Elmwood Grove. We are broadly supportive of the proposals in the draft Reserve management plan and may make a more detailed submission via the survey form.

Allan Lochhead Green (Volume 5)		
Name		**Submission**
Jake		• Adding a public rubbish bin to the Camrose playground/Alan Lockhead green is necessary. The South end of town has multiple rubbish bins at play areas/ town centre but nothing of its kind at the north end where the town is experiencing most of its growth and where lots of families use the playground and people walk their dogs through Camrose.

Harris Scientific Reserve (Volume 5)		
Name		**Submission**
Mull		• Please keep supporting the planning and maintenance of this reserve.
